

Fast ForWord® LITERACY Advanced

The five exercises of Fast ForWord Literacy Advanced are designed specifically for adolescents and young adults, enabling students to further strengthen their foundational cognitive and language skills. Cognitive skill building includes sustained attention, the ability to sequence multi-step instructions, and auditory and visual memory. Language skills focus on listening comprehension and English conventions. Basic reading skills focus on phonemic awareness, decoding and word recognition.

SKY RIDER

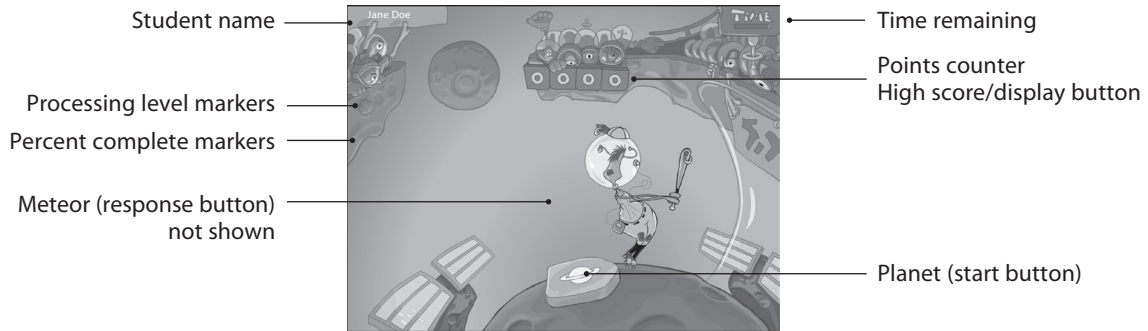

Sound

Object	Ride the sky board as skillfully as possible by correctly identifying sequences of sound sweeps.
Task	Click the start button to hear a sequence of sound sweeps. Then click the up or down arrows to identify the sequence of sound sweeps heard.
Coach Tips	Use the Help button to see the difference sequences of sound sweeps. Sky Rider begins with two sound sweeps, and progresses to sequences of three, four and five sound sweeps.
Keyboard Shortcuts	Start button – space bar or left arrow Up and down arrow buttons – up and down arrow keys

METEOR BALL

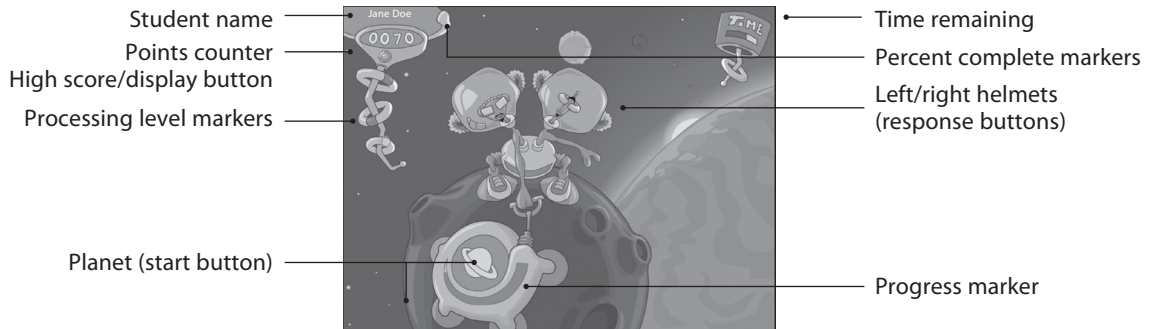

Word

Object	Identify a pronounced target word when presented in a series of pronounced and written words. In the Fluency round, hit meteor balls into space by identifying target words.
Task	Click the start button to hear a word pronounced. Click the meteor ball that presents the target word.
Coach Tips	In the fluency round, the student has three chances to hit meteor balls into space.
Keyboard Shortcuts	Start button – space bar or down arrow Target word – up arrow

LUNAR LEAP

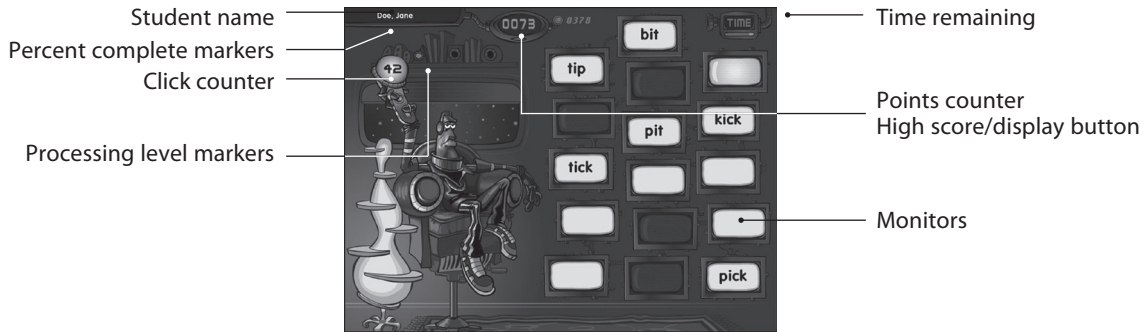

Word

Object	Identify a pronounced target word when presented in a sequence of two pronounced and written words. In the Fluency Round, identify target words displayed on space blocks.
Task	Click the start button to hear a target word. Then listen to the alien pronounce two words. Click the alien’s helmet that presents the target word. In the Fluency Round, click all the blocks that display the target word.
Coach Tips	Ten correct trials results in the bungee machine launching the alien toward the next moon.
Keyboard Shortcuts	Start button- space bar or down arrow Left helmet and right helmet – left and right arrows Blocks in Fluency Round – number keys 1, 2, 3, 4, 5

LASER MATCH

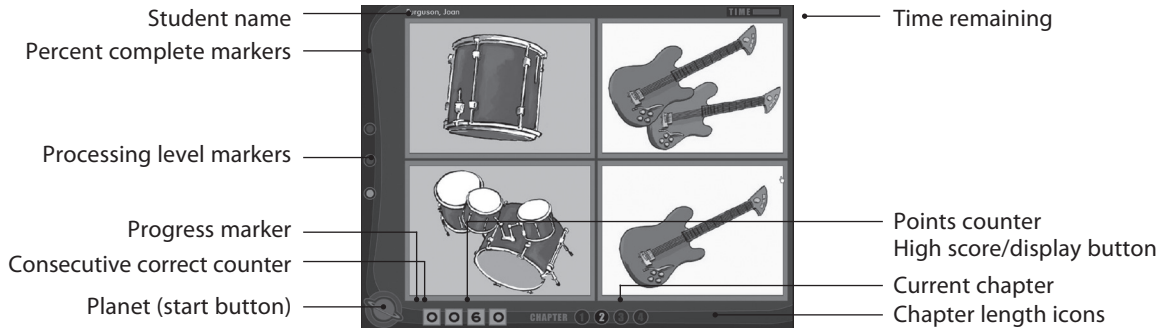

Word

Object	Match all the words into pairs using the fewest clicks. Zap the target words in the fluency round.
Task	Click the start button and listen to the word. Click the other monitors to find the matching word. Continue until all the monitors are off. Fluency Round – Click the start button to hear a target word. When the target word appears on one of the monitors, move the alien directly below that monitor and click the mouse to zap the word.
Coach Tips	Any remaining clicks on the click counter are awarded as bonus points.
Keyboard Shortcuts	Start button – space bar or down arrow Move alien left or right in Fluency Round – left and right arrow keys Fire laser control in Fluency Round – up arrow

GALAXY THEATER

Word

Object	Listen to a story and then answer questions and follow instructions.
Task	A story is presented with four chapters. Each chapter includes three activities: listening comprehension, language comprehension and following directions.
Coach Tips	There are four chapters in each story.
Keyboard Shortcuts	Start button – space bar or down arrow Responses in Listening & Language Comprehension – number keys 1, 2, 3, 4
