

Gemm helps make learning easier.  
The games that I get to play are like  
exercises for my brain. They can  
help improve the way I listen,  
understand, read, and express myself  
at school and home.

Tying my shoe, riding a bike, and catching a  
ball are all things that are hard to learn. But,  
with practice, they become easier.

Playing my games each day will help make  
learning easier too!

I promise to try hard and  
play all assigned games  
each session.
